About me

MERN stack developer with hands-on experience building scalable web applications and RESTful APIs. Completed a 6 - months software development internship at TRON Softech Pvt. Ltd, where I worked with React.js, Node.js, Express.js, and MongoDB. Developed multiple full-stack projects, including an e-commerce platform with payment integration. Seeking opportunities to contribute to innovative web development projects.

Technical Skills

- **Languages :** JavaScript (ES6+)
- **Frontend :** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Context API
- **Backend :** Node.js, Express.js, REST APIs, JWT, OAuth
- **Database :** MongoDB, Mongoose, Aggregation, Indexing, Local Storage
- **Tools :** Git, GitHub, Postman

Internship

TRON Softech Private Limited, Pune *Full Stack Web Developer (MERN) Intern*

Project: Bag Shop Website

- Developed a full-stack MERN e-commerce web application with secure user authentication, product browsing, shopping cart, and online order management.
- Built responsive user interfaces using React.js and developed RESTful APIs with Node.js and Express.js, using MongoDB for efficient data management.
- Integrated JWT authentication, bcrypt password encryption, and Razorpay payment gateway to ensure secure user access and online transactions.
- Published a research paper based on the project in the International Journal of Innovative Research in Technology (IJIRT), highlighting the design and development of a scalable MERN-based e-commerce application.

Education

G. H. Raisoni College of Engineering and Management, Pune Aug 2024 – June 2026
MCA in Computer Applications CGPA – 8.23

Projects

LaLayora Beauty (LL Beauty) (Link Preview)

- Developed a full-stack luxury beauty e-commerce platform using React, Tailwind CSS, Node.js, Express.js, and MongoDB with a responsive and user-friendly interface.
- Designed and implemented a centralized NXL Credits loyalty system, allowing customers to earn and redeem rewards across multiple company platforms.
- Built advanced business features including Digital Gift Cards, Franchise Management, Secure Payments (Razorpay), and a comprehensive Admin Dashboard for efficient business operations.
- Developed scalable REST APIs with JWT authentication, role-based access control, order management, wallet integration, and real-time business workflows
